

Eco-gestes

Electricity

-  Switch off lights when leaving a room
-  Cover pots and casseroles on the stove
-  De-Frost food naturally not in the microwave
-  Do your washing at low temperature
-  Don't leave appliances on stand-by
-  Keeping Fridges and Freezers frost-free saves 30% of energy use

Water

-  Don't leave taps dripping
-  Turning off the water when brushing your teeth can save up to 12 litres of water per minute
-  Turning off the water in the shower when you soap-up, can save the same
-  Use the full/half flush buttons on the WC
-  At the end of a meal, empty your water glasses and carafes into any plants that need water. They will appreciate it

Eco-gestes is a government sponsored initiative for holiday home owners and users which we support

You can help us to preserve the environment
